Each article awarded with the MADE IN GREEN label can be transparently traced by the unique product ID on www.oeko-tex.com/en/label-check. The label provides information about the production facilities along the supply chain of each article.

The MADE IN GREEN label gives assurance to the user that the textile or leather product:

-  is from materials tested for harmful substances
-  was produced in environmentally friendly facilities
-  was manufactured in safe and socially responsible workplaces

The MADE IN GREEN by OEKO-TEX® label serves as a special means of communication for companies that present their responsible processes and supports consumers in making sustainable purchasing decisions by providing information that is quickly accessible.
